Area Need Improvement

Fire drills were not run in accordance with the minimum staffing ratio indicated in the safety plan. The agency needs to ensure drills are conducted in accordance with the safety plan and the minimum amount of staff indicated in the plan as necessary to safely ensure all individuals can evacuate in a reasonable timeframe assist in the drill.

<p>Process Utilized to correct and review indicator</p>	<p>After processing feedback from OQE surveyors on 1/12/23, Valley administration, including the Program Director and Program Coordinator, scheduled a fire drill for 1/13/2023. Within this fire drill, and subsequent fire drills held on 1/26/2023, 4/6/2023, and 6/13/2023, Valley Collaborative ensured that only the minimum number of staff to individuals ratioed (as indicated in Valley Collaborative's Emergency Evacuation Safety Plan for Work/Day Supports) participated in and supported the individuals to evacuate in under two and a half minutes.</p> <p>Valley Collaborative's Emergency Evacuation Safety Plan for Work/Day Supports indicates the minimum number of staff to individuals to safely evacuate the building is 1:6.</p> <ul style="list-style-type: none">- On 1/13/2023 the staff to individual ratio for evacuation was 1:6 and the evacuation took 53 seconds.- On 1/26/2023 the staff to individual ratio for evacuation was 2:9 and the evacuation took 45 seconds.- On 4/6/2023 the staff to individual ratio for evacuation was 1:3 and the evacuation took 30 seconds. <p>**there were only three individuals in the building at the time of the drill</p> <ul style="list-style-type: none">- On 6/13/2023 the staff to individual ratio for evacuation was 1:6 and the evacuation took 25 seconds. <p>Moving forward, Valley will ensure that only the minimum amount of staff to individuals ratioed, as indicated on the Emergency Evacuation Safety Plan for Work/Day Supports, will participate in an emergency evacuation. Valley Collaborative administrative staff will coordinate with staff members who are supporting individuals within the building on the day of an emergency evacuation drill and instruct them not to participate in the evacuation because it will take Valley out of the minimum ratio.</p>
